Koransha*

B2 2-100J

The Sakura Collection from Koransha showcases the cherry blossom in all its glory. Perhaps the most beloved of all flowers in Japan, it has been an abiding part of the Japanese aesthetic and sensibility since ancient times and pivotal to life in Japan. Koransha's collection boasts layers of cherry blossom petals in full bloom expressed in beautiful contrast by coats of varying shades of lapis lazuli. Applying a new technique while using the traditional color of lapis lazuli, Koransha integrates traditions and contemporary styles into this series. Made in Arita, Japan.
