LSA International

Vibrantly coloured stripes are borrowed from traditional Polish costumes and decoration in the FOLK Collection. Visit them at Atlanta to see staggered bands of alternating colour mimic Łowicki fabrics, and the exaggerated silhouettes of layered, billowing skirts are seen in the wide, undulating vase shapes. Coloured glass rods are heated and applied to the glass gather before being mouth blown into a bespoke mould. The skilled, handmade process produces distinctive folk inspired patterns and playful forms, with no two vessels ever being the same.
